TELMEX CEDA DIGITAL LIBRARY

As a result of the strategic alliances of the General Coordination and Administration of the Wholesale Market of Mexico City, with educational and technological institutions and companies to bring closer to the community the new digital processes that accelerate and / or strengthen its commercial activity, The Telmex CEDA Digital Library is in operation since 2013. It has 10 desktop computers that can be used for free by merchants, customers and employees, as well as the population of the nearby neighborhoods, in activities such as:
